

BELL®

s.r.l.

40th Anniversary of the Foundation

OUR FIRST 40 YEARS

Last December 12, 2024 we proudly celebrated our 40 years of activity.

It was September 6, 1984 when the company BELL SRL was founded, and since then we have traveled a long path made of commitment, innovation and dedication.

We had the honor of receiving a prestigious award from Unindustria, the territorial association of the Confindustria system that represents about a thousand manufacturing and service companies in the province of Reggio Emilia.

This award is a source of great pride for us and demonstrates our constant commitment to excellence.

One more reason of satisfaction is the fact that we are still in business despite the difficulties and the recent (but not only) contraction of the industrial sector, in particular the Automotive sector, which has been in crisis for over 20 months and with a future that does not yet show signs of recovery.

Our resilience and ability to adapt allowed us not to give up and to look to the future with hope and determination.

Thanks to all those who have contributed to our success: our employees, our customers and our partners.

Together, we will continue to build the future of BELL SRL.
